

WITHOUT CONDITIONS.

Misapprehensions of Spain's Concession Cleared Up.

Spanish Government Offers to Submit Maine Question to Experts Designated by Maritime Powers--Spanish Minister Deeply Impressed by Numerous Errors--Important Official Documents.

Washington, April 10. The Spanish government through its minister at Washington, Senor Polo de Bernabe, tonight delivered an important official document to the State Department stating that the armistice which the Queen Regent of Spain had commanded Gen. Blanco to proclaim today was without conditions. That Her Majesty's government had granted liberal institutions to the island of Cuba which the coming Cuban parliament would develop. Recalling the condoleance and sympathy expressed by the Queen Regent and her government on the disaster of the Maine and the horrors this disaster had occasioned in Spanish hearts and appealing to the courtesy and sense of justice of the United States government to enlighten public opinion upon the attitude of Spain. The note also reports the offer of the Spanish government to submit the Maine question to experts designated by the maritime powers of the world.

MISAPPREHENSIONS CLEARED UP.

Minister Woodford's despatch last night had briefly stated the fact that an armistice had been agreed upon but it was not communicated as coming from the Spanish government. Today's communication cleared up misapprehensions on the vital point of Spain's concession, namely, that the armistice was without conditions.

The note was received by the State Department after the first cabinet meeting and was one of the main subjects of consideration at the second cabinet meeting held tonight. Although the Spanish note was surrounded with the usual secrecy of official negotiations, the following summary of its contents was secured:

The Spanish minister in Washington, deeply impressed by the numerous errors which seemed to have obtained credit in public opinion in America in regard to the Cuban question, considers it his duty to call again the attention of the Secretary of State to the following points:

First--Her Majesty, the Queen Regent, of Spain, desirous of ending the troubles which are desolating Cuba, has

commanded a cessation of hostilities. Gen. Blanco has been ordered to proclaim today an armistice without conditions. He will determine later the duration and details of this armistice so as to carry out the generous intentions of Her Majesty and the wishes of the friends of peace.

Second--Her Majesty's government has granted to the island of Cuba institutions as liberal as those enjoyed by Canada under the British flag. The Cuban chambers will meet on the 4th of next May. It will be their duty and privilege to put into practice and develop these institutions. In addition to this Cuba is represented in the parliament of Madrid.

SYMPATHY RECALLED.

Third--Public opinion in this country appears to ignore the fact that the loss of the Maine was immediately followed by official and reiterated expressions of condoleance from her majesty, the Queen from her government, from her charge d'affaires in Washington and from the authorities in Havana; all of which tended to allay the horror which this disaster has caused to arise in Spanish hearts, as also the sympathy felt for the U. S. government and army and for American nation. The Spanish minister feels confident that he can count on the courtesy and sense of justice of the U. S. government to enlighten public opinion upon this subject.

Fourth--As to the cause of this lamentable disaster, it resolved itself into a question of facts which can only be settled by material proofs. The Spanish minister reiterates the assurance that his government is ready to submit the question to experts designated by the maritime powers whose conclusions are in advance accepted.

Senor Polo delivered the document in person to the State Department, and aside from the interest in the communication itself, the call had added interest as an evidence of a renewal of diplomatic negotiations, this being his first call at the department and, after Senor DuBois, first secretary of the legation, made another call at the department on the same general subject. Besides delivering the note the call permitted a personal exchange of an agreeable character.

SPANISH STILL OPERATING.

Kings-ton, Jamaica, April 10. An agent of the Cuban government arrived here today and is going on to New York. He reached Port Antonio on Friday by the Brookline.

According to advices from Santiago de Cuba, small engagements are still occurring in the country along the river Cauto. Gen. Pando and 1,500 Spaniards are operating near Bayamo, where the insurgents have their principal stronghold.

Americans who arrived by the Brooklyn declare that the operations are still more active, because for the last two weeks wagons loaded with wounded and sick have entered the city daily from the front.

Senor Estrada Palma called the local junta yesterday to suspend the fitting out of an expedition here for Porto Rico pending further advice. The junta has agreed to make certain proposals to the American consul, Mr. Dent, that in the event of war they will furnish pilots into safe harbors.

Mr. Badell, a well known merchant of Santiago de Cuba, called today to have a steamer sent to take off fifty Cuban families, the best in the city, who wish to leave because of the probability of war. Efforts will be made to charter a British steamer for this purpose.

Some Americans are left there also who wish to leave, including Mr. Charles Fox, auditor of the Juaguna Mining Co., and ten others connected with the same company, most of whom are Philadelphians.

TOPEKA AND SOMERS AT PORTLAND.

Portland, England, April 10. The United States cruiser Topoka (former Diogenes) in command of Lieut. John J. Knapp, and the torpedo boat Somers, Phisid. G. W. Hazleton commanding, which was on route for the United States, put in here today. After clearing Portland and bill such a heavy sea was encountered that Lieut. Knapp deemed it safer to turn. After thirty of the Topoka's crew refused to sail in her, necessitating the shipping of others to fill their places. The Somers, it is found, sprang a leak but her officers do not regard the injury as serious. Her crew, however, became frightened and struck. Being merely bored hands, not enlisted men, they were not amenable to naval discipline, and Lieut. Knapp is endeavoring to secure a fresh crew.

MONEY HAS "RIZ."

One effect of the war scare has been to affect the money market to the disadvantage of those seeking a loan. City Treasurer Peirce has just received letters from Boston in answer to his enquiries for a loan of \$25,000 to \$30,000, offering the amount at 5 1/2 to 6 per cent. interest. This is a decided contrast to the rates some time ago. City Treasurer Peirce having made a loan at as low rates as 2 1/2 per cent. He secured a loan a few weeks ago at 4 per cent. He will not close negotiations for the loan for a few days, hoping that war matters will take a more favorable turn and that interest rates will be easier.

REPORT OF A BATTLE.

Yokohama, April 11. Despatches from Nagasaki report that a collision has taken place between the English and the Russians at Ta Lien Wan.

SPANISH WAR-SHIPS SAIL.

London, April 11. A despatch to the Telegraph from Gibraltar says that the Spanish cruisers Cristobal Colon and Infanta Maria Teresa have left Cadiz for a destination undivulged, with six battalions, each a thousand strong.

Additional troops, the despatch as-
 serts, will leave Cadiz by the mail steamer during the next few days for Cuba.

NOT SURE.

Havana, April 11. The Madrid authorities have cabled Gen. Blanco that the six European powers on the request of the Pope have brought their influence to bear upon the United States in the interest of peace, and that concessions are projected in the form of an armistice or a suspension of hostilities to facilitate a peaceful settlement.

The news of the armistice has produced an excellent effect among business men and will help to confirm values. Gen. Blanco has been ordered from Madrid to establish an armistice and he in return has asked further instructions.

"LONG LIVE SPAIN."

Madrid, April 10--9.30 P. M. A large crowd is parading the Puerta del Sol crying "Long live Spain" and "Long live the army." The civil governor of Madrid is among them, promouncing up and down, and begging them to disperse peacefully.

The crowd, relying on the kindheartedness of the governor, whom the population of Madrid adores, refuses to disperse and is bent on visiting the military club to make a demonstration of sympathy.

11.30 P. M.--Demonstrations continue in favor of the army and against the government. The demonstrators have visited the military club and the officers of the liberal newspapers. There have been numerous arrests and many of the demonstrators have been injured.

PRESTIGE HIGHER THAN EVER.

Pekin, April 10. The effect of Great Britain's action at Wei-thu-wei is thoroughly apparent here. The Chinese thoroughly comprehend now the disinterestedness of England and her prestige as never higher than ever.

The Chinese regard Great Britain's action as a step which has saved the empire from dismemberment. Numerous indications are reported of a growing Chinese distrust of Russia.

(New England Editor.)
One of Maine's Vigorous "Old Reliabilities"

Like most other communities that have attained to large size and considerable age, Bangor, Me., has its "old reliable" newspaper. That paper is today and long has been The Bangor Whig and Courier. It is one of the landmarks of the "queen city of the east" and has passed the octogenarian milestone several years since. Its history stretches back over considerably more than half of the period since the first pioneer's cabin was reared on the site of the present busy city "way down east in Maine." But although old in years, The Whig and Courier has a vitality that has been evidenced by something more than long life and past health—it has doubled in size, gotten on a new dress and is in a new and larger home. It is better and stronger for its many years and its many friends gained in those years, and at this important epoch in the paper's history a glance over its past and a look at its present will furnish newspaper men of New England a bit of interesting reading.

The first ancestor of which The Bangor Whig and Courier is the direct lineal descendant was the Bangor Weekly Register which appeared November 25, 1815. Peter Edes was the publisher and hailed from Augusta, Me., where he had published the Kennebec Gazette. Bangor was then a small village, and Editor Edes not only wielded the editorial quill but the inkling balls with which the forms of his paper were prepared for the "squeeze" of an old Kamage press, the power plant being a muscular boy. Most of Mr. Edes' newspaper equipment including his editorial chair, are now treasured possessions of the Bangor Historical Society.

After two years of vigorous and rigorous pioneer newspaper work, Mr. Edes sold the paper to one James Burton, Jr., then it became the Bangor Register. In 1826 John S. Carter was associated with Mr. Burton as publisher. The paper's columns during this period gave evidence of much editorial ability, among its contributors being Edward Kent, who afterward became governor of Maine. The Register in 1831 under the proprietorship of Samuel Valentine became the Penobscot Journal. Phineas Barnes, afterward a prominent Portland newspaper man and promoter of the Grand Trunk railroad, was editor of the paper at this time. When the Whig party was organized in 1833, the Penobscot Journal became the Bangor Courier and raised the standard of the new party. W. E. P. Rogers was the new proprietor and Samuel Upton and O. C. Gustin became its editors, both of whom were men of ability and enterprise.

It was 64 years ago, when the town of Bangor became a city, that the Bangor Daily Whig and Courier took its present name and began the publication of a daily paper. Few daily papers in the country can boast so long a life and so old a name. In 1835, Mr. Rogers sold the paper to Gamaliel Merchant and A. Smith, Mr. Merchant becoming editor. In 1838 Mr. Merchant, because of our health sold his interest to John Edwards, of Portland, who with Mr. Smith carried on the paper till 1841, when he sold his interest to John S. Sayward, then editor of the Mechanic and Farmer, for 13 years Messrs. Sayward and Smith published the paper. In 1854 W. H. Wheeler then editor of the Kennebec Journal, and J. H. Lynde, a printer on the Maine Farmer of Augusta, became owners of the papers. These two gentlemen made a very strong newspaper team, and during the early years of the Republican party and the dark days of the Civil War were a power for the cause of liberty and union in the Pine Tree State. In 1858 Mr. Lynde became sole proprietor of the paper and remained such till his death in 1874. Editor Lynde was a man of great force of character and high principle. He was a power in Maine newspaperdom of his day. Among the newspaper innovations he introduced into Bangor were the power press and the metal editor. It was during his proprietorship in 1870 that Charles A. Boutelle came to the Whig and Courier as its official editor.

After Mr. Lynde's death the paper was sold to Messrs. Burr, Robinson and F. J. Lynde, a son of the former proprietor. This combination lasted only a month when Charles A. Boutelle bought the interests of Messrs. Robinson and Lynde, he firm becoming Boutelle & Burr, with Mr. Boutelle as editor. This brilliant editor, with E. P. Boutelle, a brother associated, and Mr. Burr, formed one of those happy newspaper combinations—rare in the editorial chair and brains in the business office. Mr. Burr's death occurred in 1897. In 1876 E. P. Boutelle came to the paper as a reporter and before Mr. Burr's death had risen by reason of ability and energy to the position of managing editor, and in 1891 purchased Mr. Burr's former interest and assumed the conduct and direction of the paper. Charles A. Boutelle being largely occupied in political life, having been elected to Congress in 1882, since which time the voters of his district have wisely kept him in Congressional service.

January 1 of the present year a stock corporation known as the Bangor Whig and Courier Publishing Company was formed, and under its direction and ownership the grand old paper is going on to get larger and better things. Congressman Boutelle is president of the new company. The paper has just taken up new and larger home at 140 Exchange street, leaving the old quarters in Bowman's block at Kenduskeag bridge where they had been since 1859. A perfecting press has been purchased, also a battery of linotype machines. The paper has been made a handsome eight-page daily, giving the best possible news gathering facilities both local and telegraphic. In a new form and new dress, with the energy and brains that are behind it, the Bangor Daily Whig and Courier is indeed one of "the grand old" papers of Maine. Its strength is rooted in the past and secure in the robustness of its present condition. It is bold and fearless in its advocacy of what it believes to be right. It is always clean, always honest, and every morning is a welcome and safe savior in the best homes of Bangor and vicinity, and is now daily increasing its number of readers. As brilliant and successful as the past of the Bangor Daily Whig and Courier has been, its present promise of a future that will add new honors and still larger success to Bangor's pioneer paper.

A BRUTAL MURDER.

Fannie Deary, a Cripple, Found Dead in Woods Near Peabody.

Her Head Horribly Mangled and Clothes Soaked in Blood.

Remains of the Corpse of the Victim of the Crime.

Salem, Mass., April 10. The body of Fannie Deary, a cripple 18 years old, was found in the woods near the Peabody line at 6 o'clock tonight with every indication that she had been brutally murdered not many hours before. The head was horribly mangled while the clothes of the unfortunate girl were soaked with blood. The man had obliterated nearly every trace of the girl's identity, so that the police have sent for any crew of the township of the crime.

The girl lived with her father in a small cottage about a quarter of a mile from where her body was found. With him lived a young man named Thomas Dwyer, a nephew of Mr. Deary who is said to be weak minded. The girl left the house shortly after noon for a walk and for a few hours nothing was thought of her absence. Toward night, however, her father became anxious and sent young Dwyer out to find her. He returned in about half an hour and told his uncle that Fannie was lying dead in the woods and the two of them hurried to the spot where her body was found.

The body was removed to the house of Mr. Deary, but no autopsy will be made until tomorrow.

No one saw the girl enter the woods this noon, neither has anyone been found who noticed any other person in that vicinity during the afternoon.

Miss Deary had a very pretty face and was a favorite among her acquaintances. She was 18 years old and had kept house for her father since the death of her mother a few years ago.

FOUL PLAY SUSPECTED.

Body of Geo. Cloutier of Lewiston, Found in Continental Canal Sunday.

Lewiston, Me., April 10. The body of George M. Cloutier, who has been missing since the evening of March 20, was found at the end of the Continental canal Sunday morning, at about 7 o'clock, by Joseph Therien and David Gaudet.

The first time that Mr. Cloutier was seen alive was about 12 o'clock on the evening of March 20. At 11:30 that evening, he was met by his friend and associate Frank Lefebvre. They talked over some plans for the future, as they were going to do and separated. Mr. Lefebvre went home and Mr. Cloutier went down to Lake Umbagog. The next morning, however, he did not appear and his friends became anxious.

The man that owned the boat in which the body was found, a witness today, said it is expected that some sensational revelations will be made.

The body was quietly deposited in the canal. However, these appearances might be caused by being in the water and the police say that they do not necessarily imply anything, but to such Cloutier is of a different turn of mind and he does not intend to let the case fly who it is.

George M. Cloutier was a man 30 years old. He had a wife and three children, the oldest of whom is 7 years and the youngest 5 months. He was a brother of the members of the well known group known as W. P. & C. If Cloutier for whom he has worked for the past ten years.

CRUSHED TO DEATH.

For ten years, a 10-year-old boy was crushed to death by the falling of a pile of lumber in the village of Lumberville, N. Y., today at 5 o'clock.

He was playing with other boys on the lumber pile when it began to tumble. The rest of the boys escaped, but Walter was caught. An immense weight pinned him to the ground and when help arrived life was extinct. The death was one of the saddest that has occurred here for a long time.

DEATH TO THE YANKEES!

Key West, April 10. Capt. Burnett has been detached from the Blanche and ordered to Washington.

Tenant Commodore Davis will be temporary in command of the vessel. The American consular staff which accompanied Consul General Fox, is held here awaiting further orders and the implication is that the staff may return to Cuba.

There was no movement of the fleet today. The Puritan sailed and tonight the Marblehead takes the patrol. There is no fresh news from the Moron Inevitable, though there is little doubt that Gen. Maximo Gomez and Gen. Garcia have effected a union of forces.

A significant occurrence took place yesterday when the Fern with Consul General Fox and other Americans was passing Moore Castle. In reply to the Spanish rabble on the wharves who shouted "Death to the Yankees!" the correspondent of the London Times who was on the Fern responded loudly, "May every Yankee shell kill fifty of these Spanish dogs."

OLIVETTE WILL NOT COME NORTH.

Halifax, N. S., April 10. Advices were received here tonight that the Plant Line steamer Olivette would not come north as soon as expected to prepare for the spring and summer service between Halifax and Boston. The reason given is that she has been engaged by the United States authorities for use as a transport. The Olivette, which runs between Cuba and Florida in winter, was to leave Southern waters for the north early this month.

A FIRE TRAGEDY.

Two Boys Burned to Death in a Blazing Building in Halifax.

Halifax, N. S., April 10. A fire broke out at 10 o'clock in a building on the corner of the river and two boys were burned to death.

The fire broke out in a building on the corner of the river and two boys were burned to death. The fire broke out in a building on the corner of the river and two boys were burned to death.

CAMDEN NEWS.

The Volunteer Company Making Good Progress in Drills—The Public Library—Summer Prospects—Notes.

[Special to Whig and Courier.]
Camden, April 9. Mr. Howard Gardner, captain of the Camden Volunteers, is enthusiastic over his work, and pleased with the progress they are making. Already 70 or 100 names are enrolled. The first drill was held in Engine hall and was very much hampered for want of floor space, and as it was impossible to have more than three sets of fours or 24 men at one time and as it is impossible to give the necessary instruction out of doors, the opera house has been placed at the service of the Camden volunteer infantry company.

At the next meeting of the Camden public library the following officers were elected: President, Dr. J. K. Hooper; vice presidents, W. G. Alden and Reul Robinson; secretary, T. A. Hunt; treasurer, E. C. Fletcher. Miss Katherine Harding was re-elected librarian. The total number of books in the library March 1st, 1898, 2368. The total number issued during the year was 15,711. At the annual meeting of the school board, M. T. Crawford was elected supervisor of schools in place of T. A. Hunt.

With the last issue of the Camden Herald Hon. Reuel Robinson's connection with it as editor ceased. The Herald will be conducted temporarily by Mr. Jesse H. Ogier, of the Danversville Herald. Mr. Robinson is soon to open a law office in Rockland.

The body of Frank Wenzell, whose life was lost by drowning in the Oakum mill pond, was sent on the boat this week to Oakland, Mass., the home of the deceased.

The little son of Mr. and Mrs. George Prescott was bitten by a mastiff Thursday afternoon. The child fell and struck the dog's paw and he attacked the child. The mastiff was made of the side of the head and one ear badly torn. Dr. Hooper etherized the child and took six stitches in the wound. Mr. Prescott lives in the Stone Lodge adjoining Stonyhurst, the summer house of Mr. Alfred M. Judson, of New York City. The mastiff is owned by Mr. Judson. The dog will probably be killed.

The mills are all having a great run of business this spring and many of them are running day and night.

Mr. Wilber S. Irish, of Rockland, has been appointed night watch in Camden in place of Andrew Magee. He will come on duty next week.

Rev. F. M. Froble, pastor of the Chestnut street Baptist church, will sail for Europe the last of April.

Mr. Dieker, local editor of the Belfast Age, will be in town Friday.

Miss Edith B. Knight is visiting her parents, Mr. and Mrs. Johnson Knight, during her Easter vacation from Miss Morton's kindergarten school at Portland.

At St. Thomas Episcopal church Holy Week has been observed with special and appropriate solemnities. Services will be held on Easter Sunday at 10:30 A. M., followed by Holy Communion. Vestments at 5.

Prof. and Mrs. Genevieve, of Amherst College, have been in town this week and are very much pleased with Camden, and will spend the summer here at Idle Hours, the beautiful cottage owned by J. H. Prescott, of Providence, R. I.

The work on the Summit House on Mt. Battie is nearly complete. The house has been enlarged and presents a fine appearance. It will now accommodate quite a large party who may wish to spend a night there.

The guests at the Bay View House this week were: H. B. Wornsey, Whit Sawyer, A. L. Coombs, G. B. Chaffin, H. B. Whittier, W. L. C. Potter, Miss Damon, E. M. Nails, Frank Kingham, H. Foneses, S. J. Wyatt, H. A. Bourso, C. H. Gifford, E. A. Williams, Boston; T. J. Dillon, Bath; J. C. Stearns, J. R. May, Portland; C. H. Post, A. Wyllie, New York; Alex. E. Barnham, Hallowell; J. A. Moore, Dover; R. M. Carter, Geo. Bean, Farmington; Chas. R. Coombs, E. S. Sherman, Belfast; A. P. St. Clair, W. H. Bird, M. E. Norton, Austin Black, George A. Gilchrist and Mrs. Gilchrist, Rockland.

Mr. C. Wilkes Babb, superintendent of the Knox woolen mill, has been in Boston this week.

Mrs. Wm. D. Lewis and Miss Jessica Lewis, of the Ocean House, are spending a few weeks in Boston and New York.

Mr. Joshua Adams, of the firm of J. and B. C. Adams, coal dealers, is the guest of Justice White at Washington, D. C.

Miss Annie Kittredge has resigned her position as local editor of the Camden Herald and accepted a position as book-keeper at the Magnifico mill.

Mr. Clarence Adams and G. M. Mills, who left for Seattle a few weeks ago, have returned and are in Boston.

Mayor W. V. Lane has returned from a visit at Calais.

Mr. Gilman, a prominent New York lawyer, is visiting at Mr. and Mrs. Wm. Howard Gardner's at Edgewater.

Miss Mary A. Danforth, a returned missionary from Japan, will speak in the M. E. church next Thursday evening.

RABID WAR ARTICLES.

Madrid, April 9 9:10 A. M. The Pais is publishing a series of rabid war articles, the wording verging on delirium.

On its front page today it has the representation of the Spanish flag guarding the Cuban flag, with a pig overlooking a partition formed by the American flag. Under the cartoon is printed the remark: "If the grunter wants this flag, come and fetch it."

This sensational paper again announces in startling headlines that there has been an attack upon the Spanish embassy at Washington. As a matter of fact the Spanish minister at Washington has telegraphed denying the affair had any importance, and adding that the facts were simply that a few roughs had hooted in front of the legation.

The Globe (Liberal) this morning rejoices at the "calmer judgment of yesterday's press," highly commending the utterances of the Correspondence, the Tribune, and the Times, and adding: "Neither America nor Spain can ignore the collective action without daring the European powers. England's participation necessitates Spain's watchful eye on the developments. We have not forgotten that the Times said 'In order to treat with the insurgents the Spaniards must pocket their pride. Unless the powers tie the Americans' hands against further aiding the insurgents their interference will be of little benefit to America, Spain or Europe.'"

A political society here with French connections has drafted an address to the government, declaring the United States desires to "annihilate Spain's indubitable sovereignty over Cuba and Porto Rico," asserting that those islands and the keys of the Gulf of Mexico, and claiming it must be Spain's mission to retain them as a guarantee for the maintenance of the commercial interests of Europe, pointing out that "To ask Spain to haul down her flag in Cuba is tantamount to asking Europe to withdraw from the part of the world."

The members of the society promise to make every sacrifice in the interests of the fatherland.

THE PAPER TRADE.

The New York Commercial says that a declaration of war will develop peculiar conditions in the paper trade. During the past few weeks, which has been an era of "extraneous" the demand for newspaper has increased so enormously that the supply is already short, and prices have taken a big jump. If hostilities begin and the activity be increased, those newspapers which have neglected to contract for their supply for a year or more will be unable to sell papers so cheap as formerly. Almost simultaneously with the introduction of wood pulp in the process of manufacture and the consequent increase in output, publications were enlarged in size and more editions printed.

Dandruff Removed

so that the consumption has nearly equaled the supply.

Now the question arises, how can the deficiency be made up if the demand is greatly increased? Dealers say the amount now produced cannot be materially increased within a short time. If the demand was to keep up, of course additional mills would be erected, but this would require many months, and a plant begun now might not be finished before Spain had been whipped to a standstill, and in that case prices would fall.

For some months past this country has exported an average of 250 tons of white newspaper per day. Much of this amount is exported for regular shipment for some time to come, and consequently the foreign trade must be supplied, even if there is a shortage in the amount required for home consumption. England is the largest buyer of the product, and Japan also takes it in large quantities.

The daily output of newspaper in the United States is 2,200 tons and the weekly output is known as the International Paper Company or Paper Pulp Trust, controls 1,300 tons of it. Several large Pacific coast mills and some New England mills are not connected with this company. The combine includes 10 of the biggest mills in the world, located principally in New York and New England.

Manager Dillon of the combine says: "We have been obliged to refuse many orders of late in fact there is a shortage of 200 tons per day in this market and our mills are running up to their full capacity. The use of newspaper will have to be restricted to a point where the supply will reach. Nearly all of the output of the mills we control is contracted for by the retail big consumers, and we cannot therefore benefit greatly by any rise in price occasioned by the increased demand."

Mr. Ingram, of the Otis Falls Paper Company in Jay, Me., says: "I estimate that there is a shortage of 250 tons per day in this market and I don't see how it is to be made up. Ordinarily we have big supplies on hand, but there are at present no stocks of any amount in storehouses. We export nearly 300 tons of newspaper a day from this country."

ODD ITEMS.

If all the sparrows in Britain were exterminated tomorrow except one pair, in about thirty years the country would possess as many sparrows as ever.

Queen Victoria has read and re-read the poems of Scott so often that she knows most of them by heart, and often, during her drives, repeats verses descriptive of the scenery through which she is passing.

At Adria, in the Italian province of Rovigo, 18 miles from the Adriatic sea, two ancient vessels have been found which, from the thickness of the planks must have been used in seafaring. Yases, bones and other objects were found in them. The nails used were of iron, with broad heads. One vessel is 34 feet long, and 15 feet beam. In classical times Adria was a seaport, but the Atlantic has steadily receded.

Rome built roads and bridges to last. The new bridge across the Danube between Turn Severin in Roumania, and Kladova, in Servia, will be built on the pillars of the old bridge at the same place erected by Emperor Trajan, the Roumanian engineers having found that the old Roman work will stand the strain after 1800 years. A statue of Trajan will be put up in the middle of the bridge.

Diamonds may be black as well as white, and some are blue, yellow, green, pink and orange, but there is no violet diamond, although, in addition to amethysts, there are sapphires, rubies and garnets of that color.

The smallest perfect watch ever made is supposed to be one owned by a Russian princess. It was first placed in an exquisite gold case, covered with the

Spain's Armistice Decision Will Have No Effect Whatever.
President's Message Will Go to Congress To-day Unchanged.
Special Cabinet Meeting Called Sunday by Mr. McKinley.
Message Will Go to Both Houses After Twelve To-day.

Washington, April 9. The cabinet after three hours' special session called by the President in view of the armistice announced by the Spanish government, adjourned about 1:15 o'clock. The proposal for an armistice, it was subsequently learned, was not adopted. It was subsequently learned that the armistice was not adopted by the Spanish government, and that the President's message to Congress tomorrow, not changed by the situation in the slightest, would go to Congress tomorrow.

in the city Saturday on her way to Minne-
apolis for a visit
Mr. Fitzsimmons of Embden who is
in the city to attend the Easter ball is
the guest of Mr. and Mrs. A. L. Sprague,
on East Summer street

ALL PATRIOTIC.
University of Maine Students Take
Preliminary Steps to Forming
Company for the War.
That the University of Maine students
are alive to the situation and patriotic
regarding war possibilities is shown by
their action. The following is given in
addition to that already published about
their Friday meeting.
Our correspondent writes: Nearly all
of the U. of M. students assembled at
115 Friday afternoon to take action on
a proposal to organize military compa-
nies for active service. More than 200
persons with the faculty well represent-
ed stood up and sang "America" as an
indispensable part of the opening exer-
cises to such gatherings. The students
were very enthusiastic, heartily enter-
ing into the spirit of President Harris
remarks at the opening in which he stat-
ed that the government has an invest-
ment in the military department of this
university made for just such conditions
as have arisen today. The time has
come when that debt can be repaid. He
stated that the meeting was called to
consider the necessary steps and advised
careful and thoughtful action.
H. G. Libby, '98, was elected chair-
man and after a few brief remarks Li-
braryman R. K. Jones, a former captain
in the Ohio National Guard, expressed
the opinion that it was the duty of each
student to respond to a call for his ser-
vices if the country needs assistance.
The students should take an active and
useful part in bettering their training.
Prof. Hamlin then referred to a letter
that he had recently received from Lieut.
Herser, in which our former military
instructor advocated the formation of a
regiment from the U. of M. alumni and
students, that such a body of soldiers
would be efficient and would pay back
the debt to the state and national gov-
ernments.
Several speakers followed from the
student body all advocating action at
once, but pointing out the fact that the
students are all divided and will not need
preliminary training. All the impor-
tant features were taken into account,
of parents' influence of the probability
of actual war, and a committee consist-
ing of S. C. Dillingham, '98, H. I.
White, '98, and A. D. T. Libby, '98,
were appointed to draw up papers for
enlistment and to have general charge
of the matter until a military formation
could be effected. The meeting then
adjourned until 9 A. M. Saturday

Mr. F. W. Griffin has sold out his
candy business at Kane's drug store to
Miss Emma Lane. Mr. Griffin has a
store on Main street below Cedar
A tramp picturesque in his rags and
tatters, a typical weary Willie such as
Puck depicts drifted into the police sta-
tion yesterday afternoon. Some one got
a snap shot of him on the street
Mr. Walter L. Morse, it is understood,
is to have a fine house constructed out on
State street near the fine residence of
Mr. Charles C. Emerson.
